Chinese Academy of Sciences Shanghai, China
Ph.D. Cell Biology Sep 2004 – Jun 2009

Nanjing University Nanjing, China
B.S. Pharmacology Sep 2000 – Jun 2004

SKILLS

- HTML5
- PostgreSQL
- React-Router
- Node.js
- jQuery
- CSS3
- React.js
- Python
- Express
- Mocha
- JavaScript
- Redux
- Tornado
- Socket.IO

FEATURED PROJECTS

Ask Yingyang | askyingyang.herokuapp.com | github.com/ziqingW/iching_react_ui Jun 2018
- A fortunetelling website utilizing the philosophy of 'Ying & Yang' from the ancient Chinese
- Built with CSS3, React.js, React-Router, Redux, Node.js, Express and PostgreSQL
- Users can get answer by API request through the server powered by Express and view the historical results stored in database

React-Contacts | re-contacts.herokuapp.com | github.com/ziqingW/react_contacts Jun 2018
- A personal contacts book with data saved in local memory
- Built with CSS3, React.js and React-Router
- Users can add, edit and delete contact or search contact by character contained in any category

Chatter | mini-chatter.herokuapp.com | github.com/ziqingW/chatter Jun 2018
- An online chat room for different people talking to each other in one room
- Built with HTML5, CSS3, jQuery, Node.js, Express and Socket.IO
- Users can send public or private messages to other users, or receive the messages from them.

Climate Monitor|cli-monitor.herokuapp.com|github.com/ziqingW/climate-control-system-monitor May 2018
- A group project to collect and display the change of temperature or humidity in a particular area
- Built with HTML5, CSS3, jQuery, Python, Tornado, Jinja2 and PostgreSQL
- Users can check the temperature/humidity in different room, at various time points or on different date.

What Diners Say | whatdinersay.bukarle.com | github.com/ziqingW/restaurant_reviewer May 2018
- A Yelp-like website for you to search and read the reviews of restaurants in current list
- Built with HTML5, CSS3, jQuery, Node.js, Express, Nunjucks and PostgreSQL
- Users can create an account, log in, rate, review restaurants and add new restaurants to the database.
